Re: Immunization requirements for 2024 / 2025

Students Admitted at K-12 Need:

Diphtheria, Tetanus, and Pertussis (DTaP, DTP, Tdap, or Td) — 5 doses

(4 doses OK if one was given on or after 4th birthday. 3 doses OK if one was given on or after 7th birthday.)

For 7th-12th graders, at least 1 dose of pertussis-containing vaccine is required on or after 7th birthday.

- **Polio (OPV or IPV) — 4 doses**
(3 doses OK if one was given on or after 4th birthday)
- **Hepatitis B — 3 doses**
(not required for 7th grade entry)
- **Measles, Mumps, and Rubella (MMR) — 2 doses**
(Both given on or after 1st birthday)
- **Varicella (Chickenpox) — 2 doses**

These immunization requirements also apply to students entering transitional kindergarten.

All California schools are required to check immunization records for all new student admissions at TK/Kindergarten through 12th grade and all students advancing to 7th grade before entry. Parents must show their child's Immunization Record as proof of immunization.

Medical Exemptions

1. For admissions on or after July 1, 2019, what is required for a medical exemption to a required immunization?

Starting January 1, 2021, all medical exemptions will be submitted electronically directly into the California Immunization Registry (CAIR) utilizing a standard form from a physician (MD or DO) licensed in California which states:

- The specific nature of the physical condition or medical circumstance of the child for which a licensed physician does not recommend immunization.
- Each specific required vaccine that is being exempted.
- Whether the medical exemption is permanent or temporary.
- If the exemption is temporary, an expiration date no more than 12 calendar months from the date of signing.

2. For admissions prior to July 1, 2019, what is required for a medical exemption to a required immunization (per [17 CCR section 6051](#))?

A parent or guardian must submit a written statement from a licensed physician (MD or DO) which states:

- That the physical condition or medical circumstances of the child are such that the required immunization(s) is not indicated
- Which vaccines are being exempted
- Whether the medical exemption is permanent or temporary.
- The expiration date, if the exemption is temporary.

3. Does a medical exemption filed for a child attending before July 1, 2019, need to meet the new requirements?

In some cases. A medical exemption filed previously remains valid until the earliest of:

- When the child is next considered to be an admission at a school or pre-kindergarten facility (applies to both temporary and permanent medical exemptions), at which time staff will need to confirm if the previously filed medical exemption meets the newer requirements, or
- The expiration date specified in the medical exemption (applies to temporary medical exemptions), or
- Advancement to 7th grade, for a medical exemption from varicella vaccine or Tdap.

4. To meet the chickenpox immunization requirement for TK/K-12 admission or for advancement into 7th grade, may a school accept an immunization record that indicates a "history of chickenpox disease"?

No, this is not sufficient documentation to meet school requirements. Medical exemption documentation may be used for a child who had chickenpox disease that was documented by a physician. For more information on medical exemption documentation requirements, see questions above.

Personal Belief Exemptions

5. What were the main changes Senate Bill (SB) 277 (Pan, 2015) made to the immunization requirements for children entering child care or school?

Since January 1, 2016:

- Parents or guardians of students in any school or child-care facility, whether public or private, are no longer allowed to submit a personal beliefs exemption to a currently-required vaccine.
- Students are no longer required to have immunizations for entry if they attend:
 - a home-based private school or
 - an independent study program and do not receive classroom-based instruction.
- Students who have an individualized education program (IEP) should continue to receive all necessary services identified in their IEP regardless of their vaccination status.
- However, parents or guardians must continue to provide immunization records for these students to their schools, and schools must continue to maintain and report records of immunizations that have been received for these students.
